### IN AND ABOUT WESTERLY

Large Class Craduated at Elm Street School-Milton A. Young Taken to Hospital-Pleasant View Postoffice to Open July 1st-Cobby-Ledward Marriage-President Eliot's Five Foot Shelf Filled at Library.

There was a collision between the large touring car of William Hoxie bert Hert. Abraham Samuel Lahn, and the baggage car of the Pawcatuck Valley street railway in High street Thursday morning. The touring car stood in front of the Willard store, as the freight car came down High street with the gong cianging. The chauffeur, evidently believing he could cross the track ahead of the approaching car, made the attempt. He was quick to see his mistake and in backing the ear from the track a forward wheel of the antomobile was struck and one of the spokes broken. That was the extent of the damage. The freight car was stopped after running twenty-five feet.

### BEGGAR FLASHED HUGE ROLL

Method of Getting Even with Man Who Jeered Him.

Flashing a roll of bills in the face of a haughty individual who had refused to give him sims and who had added further insults to this injury by heaping ridicule upon him, a very typical beggar at Coyoacan pulled off a stunt that brought down jeers upon the uncharitable young man, says the Mexican Herald.

This beggar would have passed muster anywhere for one of the finished type, and could safely have walked unarmed at midnight through a wilderness infested with thieves without his poverty once being questioned. There was not a whole thread in the warp and woof of his shirt that extended from seam to seam, and only an expert sartorial artist could have detected which openings were those originally made in the garment for putting it on and off. Just what portion of those rags was solid and strong enough to retain the roll of bills is a marvelous enigma.

Slight Mlaunderstanding. An Italian organ-grinder recently escaped a fine by his wit. He had been playing before the house of an irascible old gentleman, who furiously and with wild gesticulations erdered him to move on.

The Italian stolidy stood his ground, and played on, and at last was arrested for causing a disturbance. At the court the magistrate asked him why he did not leave when he was requested to do so.

"Me no understan' mooch Ingleese," was the reply. "Well, but you must have understood by his motions that he wanted you to go on." "Na na," was the rejoinder: "I tink

FRESH AIR in the house and in abundance is the crying need of the 20th Century. Our Scientists preach it, our Doctors e it, the magazines are devoting pages to it. It can best be introduced, not through windows, doors and faulty construction, but by the installation of a good warm air Furnace. Try "THE BAY STATE," the Fresh Air Heater.
